**Fresh Eye REVIEWS**

# Consulting Services

Quality Control Consultants help with larger projects and quality assurance process planning.

## Our Consulting Services

Customers may need consulting services for projects that are larger in scope than an individual course. The items below describe the additional consulting services that we offer.

| SERVICE | DESCRIPTION |
|---|---|
| **Quality Consulting Services for Projects** | Our consultant will become a dedicated resource for a team working through a large development project. |
| **Quality Consulting Services for Yearly Reviews** | Our consultant will assemble a team of our reviewers to review a large group of courses and report any errors and inconsistencies found. Companies may use this service to ensure that several courses created by different developers are consistent. |
| **Quality Consulting Services for Process Improvement** | Our consultant will help teams either find ways to incorporate our services or create their own quality processes throughout the life cycle of development. |
| **Quality Consulting Services for Yearly Reviews** | Our consultant will help teams enhance existing style guides with universal standards or create new style guides that include both company style and universal standards. |

## Why Get Consulting Services

- Easily add temporary and affordable resources to your project.
- Develop quality assurance processes to help prevent errors from happening in the first place.
- Finally build that style guide you and team have been talking about building for years.
